#### My skills:

##### Stack:

- OpenJDK 11; C++ 11, Boost; PHP; Node, Python;
- Dojo, React, webpack, ES6, jQuery;
- PostgreSQL, MySQL, MongoDB;
- Redis, memcached;
- Docker (Helm, Kubernetes); Virtuozzo, Xen;
- Junit, PHPUnit, Cucumber, Selenium;
- Elasticsearch, Sphinx
- RabbitMQ
- Pinba, xdebug, XHProf; Zabbix; Sonar; pimple, composer, doctrine
- Bitbucket (Git), JIRA (+eazyBi), Jenkins.
- Vim; the JetBrains stack; Visual Studio Code.

##### Facts:

- I'm a jQuery, apt upgrade, Vim and Microsoft Excel professional;
- I'm really wicked on the projects delivery.
- I usually write an article when I spend a lot of time on a specific issue. I like to write pretty documentation and how-to articles. It saves time for newcomers.
- English level is Upper Intermediate. I prefer calls than letters.
- I also play with new technologies in my sandbox (GitHub, DigitalOcean);
- DRY, KISS; YAGNI.
- **I am a lazy perfectionist.**

#### Extras:

**I'm open for job opportunities starting from \$70K/year (\$5850/mo) gross.**

**I'm not interested in tax evasion. Only product teams, no outsource development teams.**

Ready for Full-Time (40h) shifts. Remote work preferred, but not excluding working from office.

I'm ready to short business trips. Re-locations should be discussed additionally.
